

The “My Dog Ate My Homework!” excuse is over.

With the Advances in today’s technology, and the extensive use of the internet, Backing up Daily Homework and study sheets, as well as Family Pictures, is as easy as set it and forget it. As long as there is an open internet connection, any and all of your documents, pictures, movies etc., Can be backed up to a secure server in the cloud.

Why off-site back-up?

The Advantage

Data Loss Happens

Hard drive crashes, spilled drinks, and accidental file deletion can occur at any time.

Back-up That's Simple

Manage multi-user environments, schedule automatic back-ups, and monitor the health of your back-ups from the convenience of a single web-based admin console.

Your Home Data Is Growing

Digital data is rapidly growing at a rate of 80% each year.

Maximum Security

Strict security policies, military-grade encryption, and world class data centers for optimal data protection of your home computers and laptops.

You Need To Do More With Less

Traditional back-up solutions can be expensive and take weeks to get tuned.

Ultimate Affordability

Unlimited desktops for one low price.

If you’re interested in backing up any/all of your personal files (documents, pictures, music, movies, etc.) please contact Simplified Technology Solutions at 507-437-8324 or [click here](#) to receive immediate pricing and sign up information.
